

## About the LIA

### LIA's Mission

Dear Laser Professional:

There is only one way to guarantee your success with laser safety – make sure you know the rules. Since 1968 the Laser Institute of America (LIA) has helped define the rules on laser safety. The LIA is the secretariat and publisher of the American National Standards Institute (ANSI) Z136 series of laser safety standards. These documents provide a thorough set of guidelines for implementing a safe laser program. Our training navigates you through these standards so you learn how to make safety a success.

**Trust in the society dedicated to laser safety, the Laser Institute of America.** We will help you stay current with safety regulations and provide you with the latest information you need to establish a safety program.

How can you start? Simply fill out the attached request form, fax it back to us and receive a **FREE** copy of LIA's *Laser Safety Manual* (\$75 value). This manual with help guide you in setting up a laser safety program at your facility.

We can help you take the next step toward laser safety.

Sincerely,

Peter Baker  
Executive Director

LIA

## Our Commitment to You!

As part of our commitment to offering you outstanding customer service, we have teamed up with the Laser Institute of America. LIA is the worldwide leading society on laser safety, with all the answers to your laser safety needs.

Here are some services the LIA offers:

- ANSI Standards
- Safety Guides
- Laser Safety Video Training
- Laser Safety Officer Training
- Safety Signs and Labels
- And More...

We think safety is so important that we are recommending you take advantage of this **FREE LIA Laser Safety Manual (\$75 value)** offer. The manual includes sections on laser safety administration, basic concepts, laser hazards, laser controls and protective eyewear. It also includes sample forms and documents to help assist you in setting up your laser safety program.

For more information on how to ensure safety at your workplace, please contact the LIA directly at 1-800-34LASER, or visit [www.laserinstitute.org](http://www.laserinstitute.org).

**We are here to help you!**
